Details:

Hosting our annual Family Day at the Collingwood Children’s Farm in Melbourne, staff and their families were invited to spend the afternoon exploring the walking trails and animal stations at the farm. Our Family Day brings the team from all over Australia together, and is a great chance for staff to get to know one another better. It was great fun to see the kids enjoying themselves, with everyone having a wonderful time in the sun.

“It was great to meet families of my colleagues and we had a marvellous feeling of being a part of blueAPACHE family. The kids had great fun in the farm with animals and they loved devouring their favourite sweets. It was truly memorable!”, said Ritesh Wani, a blueAPACHE Service Delivery Manager.

Taking opportunity of the lovely weekend weather, it was a fun-filled day. Activities included tractor rides and animal-feed walks around the farm, where the kids got to play with and have encounters with the animals. The event was followed by lunch at the farm’s pavilion.

“It was really a wonderful outing for us in the nice weather. Our family had so much fun and my girls really enjoyed feeding and patting the animals. We look forward to the event again next year. Well done.”, said Kenny Ng, a Project Manager who recently joined us. “blueAPACHE Family Day is one of my favourite days on the blueAPACHE Social Calendar. It provides a great opportunity to get to know fellow blueAPACHEans outside the professional environment”, said Chris Marshall, Managing Director of us.

We hope everyone had a fantastic time and can’t wait until next year’s fun!

What event did you host in 2019, and where was it held?

We hosted our annual Family Day 2019 at the Collingwood Children's Farm in Melbourne, where staff and their families were invited to spend the afternoon exploring the walking trails and animal stations at the farm.

What was the purpose of your Family Day event?

Our Family Day brings the team from all over Australia together and gives staff a great chance to get to know one another better outside the professional environment.
