

blueAPACHE in Talkin' Cloud Top 100 - blueAPACHE

Canonical: <https://www.blueapache.com/blog/blueapache-in-talkin-cloud-top-100-2>

Details:

October 15, 2014

We make the Talkin' Cloud Top 100 Cloud Service Providers for 2014.

The 2014 Talkin' Cloud 100 awards rank the world's top cloud service providers, aggregators, brokers and more. Hotly contested across multiple channels, we have featured since inception and continue to appear as one of the leading providers in the Asia and Pacific region.

Companies on the Talkin' Cloud 100 are ranked based on an internal formula that puts a heavy weighting on recurring cloud revenues. The top ten for 2014 included IBM, Salesforce, Amazon, Microsoft, Oracle, SAP, Google and Citrix.

Chris Marshall, Managing Director of us; summarised the award by stating "We are incredibly pleased that our ongoing investment into emPOWER Cloud continues to be recognised globally. This serves as testament to the multi-million dollar investment we made five years ago, and our ongoing commitment to delivering world-class private and hybrid cloud platforms that our clients can rely on throughout Australia, New Zealand and Asia."
