Details:

Press release

Melbourne, Australia – For the sixth consecutive year, we have been named on Penton Technology's annual MSPmentor 501 Global Edition – a distinguished list and report identifying the world's top 501 Managed Service Providers (MSPs). This year, we ranked 77 out of 501 recognised service providers in the world, jumping ahead by 7 positions from last year and are one of only 3 Australian companies to make the top 100. 2017 marks the 10th anniversary of the industry's most respected list of MSPs. It is based on data collected by MSPmentor and its partner, Clarity Channel Advisors between February and May this year. The methodology used to arrive at the ranking leverages insights gleaned from real-world customer interactions and more than a decade of experience working in the MSP community. In addition to recurring revenue, it examines the business models, technologies, vertical markets and customer segments in order to identify the top managed services and cloud service providers.

"It is an honour to be recognised again on a global stage" said Chris Marshall, our Managing Director. "Since first appearing on this list in 2012, we have strengthened our position each year. Our strong focus on customer service, consultative partnering and being a single point of accountability for our clients has contributed towards making us a global leader in the MSP space. Our converged emPOWER suite of services integrates all our offerings – Managed Services, Cloud, Network, Voice, Software and Consulting – into a comprehensive, unified, bespoke solution that clients are drawn towards. This is a unique differentiator and the reason we continue to move up the MSPMentor Global Edition." The complete 2017 MSP 501 list was originally published by MSPmentor and required registration. About blueAPACHE Since 1998, we have helped organisations in Australia, New Zealand, Asia and North America leverage technology to their business advantage by delivering comprehensive IT Management, Cloud, Network, Voice, Software and Consulting as a converged service – when they need it, as they need it. This is true IT as a Service. This is who we are. To learn more, visit www.blueapache.com .

What rank did you achieve on the MSPmentor 501 Global Edition list in 2017?

We were ranked 77 out of 501 recognised service providers in the world on Penton Technology's 2017 MSPmentor 501 Global Edition list.

How did your 2017 ranking compare to the previous year?

We jumped ahead by 7 positions from the previous year and was one of only 3 Australian companies to make the top 100.

How many consecutive years had blueAPACHE been named on the MSPmentor 501 Global Edition as of 2017?

2017 marked the sixth consecutive year that we had been named on Penton Technology's annual MSPmentor 501 Global Edition.

What is the MSPmentor 501 Global Edition and how is the ranking determined?

The MSPmentor 501 Global Edition is a distinguished list and report identifying the world's top 501 Managed Service Providers (MSPs), based on data collected by MSPmentor and its partner Clarity Channel Advisors between February and May. The methodology leverages insights from real-world customer interactions and more than a decade of MSP community experience, examining recurring revenue, business models, technologies, vertical markets and customer segments to identify the top managed services and cloud service providers.

Who commented on your 2017 MSPmentor ranking and what did they say?

Chris Marshall, our Managing Director, said, 'It is an honour to be recognised again on a global stage. Since first appearing on this list in 2012, we have strengthened our position each year. Our strong focus on customer service, consultative partnering and being a single point of accountability for our clients has contributed towards making us a global leader in the MSP space. Our converged emPOWER suite of services integrates all our offerings – Managed Services, Cloud, Network, Voice, Software and Consulting – into a comprehensive, unified, bespoke solution that clients are drawn towards. This is a unique differentiator and the reason we continue to move up the MSPMentor Global Edition.'

When did you first appear on the MSPmentor 501 list?

According to Chris Marshall, we first appeared on the MSPmentor 501 list in 2012.

What is your emPOWER suite of services?

The emPOWER suite is our converged offering that integrates Managed Services, Cloud, Network, Voice, Software and Consulting into a comprehensive, unified, bespoke solution for clients.

What does the press release say about your history and services?

Since 1998, we have helped organisations in Australia, New Zealand, Asia and North America leverage technology to their business advantage by delivering comprehensive IT Management, Cloud, Network, Voice, Software and Consulting as a converged service, described as 'true IT as a Service.'
