Details:

FEBRUARY 28, 2024: While Artificial Intelligence (AI) has become a powerful tool for progress, it will clearly disrupt how IT is managed within organisations. AI brings new cybersecurity risks, but despite these challenges, it offers immense potential to increase efficiency and productivity. In this new environment, managed service providers will play a vital role in creating a more productive and secure business environment. Every year, Cloudtango honors the most successful managed service providers (MSPs) in Australia. In this tenth edition, MSP Select continues to highlight technical excellence, innovation, and customer satisfaction provided by the industry across Australia, in what has become a reliable reference due to its independent, unbiased approach, as well as in-depth analysis. For 2024, technical analysis focused on cybersecurity, support, infrastructure, and cloud services, while underlining positive trends in business growth, customer satisfaction, technical certifications, and continual service improvement. "Exceptional customer service isn't just about metrics; it's about surpassing expectations, embodying innovation, and inspiring confidence," said Jordi Vilanova, Managing Director at Cloudtango. "We chose blueAPACHE because it consistently achieves exceptional results, setting a benchmark for excellence in the industry." MSP Select reflects an excellent track record delivering innovative IT solutions, cybersecurity solutions, and cloud services. By being selected, we demonstrated outstanding capabilities while exceeding customer expectations.
