Congratulations blueAPACHE On Becoming A Finalist at ARN Innovation Awards

OCTOBER 8, 2021: ARN is proud to announce the finalists of an enhanced Innovation Awards in 2021, housing a record-breaking number of submissions in what will be the largest celebration of ecosystem excellence in delivering transformative customer solutions across Australia. Representing the entire Australian ecosystem, 315 finalists (including 85+ individuals) make the shortlist from a pool of over 195 organisations and more than 470 nominations, spanning partner, start-up, telco, vendor and distributor businesses.

"ARN congratulates blueAPACHE on becoming a finalist in the Mid-Market – Partner Innovation category," said Cherry Yumul, vice president of Strategic Partnerships and Innovation at IDG. "The 15th running of ARN Innovation Awards has undoubtedly captured the most challenging yet transformative

period of the Australian channel. “On the one hand, battling against the odds to keep businesses running during COVID-19 lockdowns and restrictions, yet on the other, raising the bar for industry excellence through the deployment of bleeding-edge technologies and solutions. Such juxtaposition perfectly illustrates the DNA of this industry – tough and transformative in equal measure. “Enormous credit to the market-leading companies and individuals continuing to press ahead in helping customers innovate at pace – despite the notable difficulties – which once again demonstrates the depth of transformation taking place across the country. Congratulations blueAPACHE, nothing can stop your pursuit of excellence.” In 2021, Innovation Awards will honour the channel across eight categories, spanning Partner Innovation, Tech Innovation, Australia-wide Innovation, Start-up Innovation, Personal Innovation, Vendor Innovation, Distributor Innovation and Hall of Fame. In streamlining the program, the aim is to increase focus on the pace-setters of the local market, those revving up the innovation engine and powering ahead in the delivery of transformative solutions and services. Reflective of a diverse technology network, finalists range from large-scale multinational consultancy firms to emerging start-ups, alongside leading system integrators, managed service providers and solution consultants, plus cloud specialists, independent software vendors, boutique agencies and application developers. This is in addition to channel-centric vendors, telecommunications providers and supply chain experts. Within this standout group, finalists are located across the entire country and represent all states and territories, spanning New South Wales, Victoria, Queensland, Australian Capital Territory (ACT), South Australia, Western Australia, Tasmania and Northern Territory. Collectively, Innovation Awards in 2021 stands tall as the leading forum for setting the industry benchmark for ecosystem excellence across Australia. The winners will now be selected by an executive panel of industry judges – acknowledging creativity, innovation and excellence – before being announced at a celebration dinner at ICC Sydney on Thursday 9 December.
