Details:

December 22, 2022

As we bid farewell to another year, I would like to take a moment to recognise and thank you all for your ongoing partnership and support through 2022.

As I reflect on the past 12 months, I am incredibly proud to lead our team of blueAPACHEans, who continue to go above and beyond, representing our company promise of delivering technical excellence and accountability to you, our partners.

Regardless of the ever-shifting landscape, our resolve to be the Leading Mid-Market Global IT Service Provider remains, and throughout 2022, we continued our investment across our people, technology platforms and systems.

Key highlights for 2022 include:

The launch of our new Experience business unit dedicated entirely to customer and employee experience.

Further expansion internationally, increasing our teams and reach across South Africa, UK, USA and Asia.

Engaging with over 11,000 followers on LinkedIn – this has become a critical channel to communicate and celebrate with our #teamblue community.

Accepting the coveted 2022 ARN Mid-Market Partner of the Year Award for the fourth consecutive year.

Taking home numerous Partner of the Year Awards from our Alliance Community including Aruba, CyberArk, HPE, Rapid7 and Yealink.

As I look to 2023, I’m excited by the opportunity to engage in person with the broader blueAPACHE community and commence the planning for our quarter century milestone with a gala celebration.

Every year continues to be bigger and better; we truly are just getting started!

On behalf of the entire team within our business, I wish you, your colleagues, and your family a safe, healthy end to the year filled with lots of positivity as we enter the new year together.

We look forward to serving you in 2023!

Cheers,

Chris Marshall

Founder and Managing Director

News
