Details:

July 21, 2025

We're excited to officially launch the blueAPACHE Procurement Portal .

Designed to make sourcing IT hardware and consumables faster and easier, the portal is available 24/7 and gives you the freedom to browse products, check live pricing and stock, and place orders – all in just a few clicks.

Key features:

Real-time availability and pricing

Full product catalogues from top vendor

Instant ordering and tracking

Free for all our customers

Whether you're after laptops, accessories or everyday essentials, the portal is built for speed, convenience and control.

Book your onboarding session [here](#) to get started.

What is the blueAPACHE Procurement Portal?

Our Procurement Portal is an online platform launched by us designed to make sourcing IT hardware and consumables faster and easier. It is available 24/7 and lets users browse products, check live pricing and stock, and place orders in just a few clicks.

What are the key features of the blueAPACHE Procurement Portal?

The key features are: real-time availability and pricing, full product catalogues from top vendors, instant ordering and tracking, and it is free for all our customers.

Is the blueAPACHE Procurement Portal free to use?

Yes, according to the page, our Procurement Portal is free for all our customers.

What kinds of products can be purchased through the blueAPACHE Procurement Portal?

The portal is built for sourcing IT hardware and consumables, including items such as laptops, accessories, and everyday essentials.

How can someone get started with the blueAPACHE Procurement Portal?

Interested users can book an onboarding session via a link provided on the page (a HubSpot meeting scheduler for a procurement demo) to get started with the portal.

Where can users log in to the blueAPACHE Procurement Portal?

Users can access our Procurement Portal login page at blueapache.store/#/login, as linked in the article.
