Article

25 March 2022: A managed service provider is a vital ingredient when trying to operate a successful business. They also play a key role in turning IT into a distinctive advantage without straining budgets. It is for this reason that every year Cloudtango honors the most successful MSPs**** across Australia in what has become an industry reference due to its independent, unbiased approach, as well as in-depth analysis. In this eighth edition, MSP Select Australia continues to highlight technical excellence, innovation, and customer satisfaction provided by the MSP industry. For 2022, the technical analysis focused on cybersecurity, support, infrastructure, and cloud services. "Through the selection process, we have reviewed 223 different types of certifications, case studies, endorsements, and up to eight years of data. With the world becoming more digital, a high standard of IT services is ever more critical for businesses to stay competitive. With this in mind, we selected blueAPACHE due to its strong commitment to excellence and customer satisfaction" said Jordi Vilanova, Managing Director at Cloudtango. MSP Select does also underline those MSPs who play key roles in helping customers drive innovation. By being selected, blueAPACHE demonstrated a track record of successfully delivering innovative IT solutions while exceeding customer expectations.
