

#teambblue celebrates our biggest year-to-date at blueCHELLA 2019 - blueAPACHE

Canonical: <https://www.blueapache.com/blog/teambblue-celebrates-our-biggest-year-to-date>

Details:

December 16, 2019

2019 has been an incredible year of achievements for blueAPACHE and to celebrate the year that was, our global team came together on Friday 6th December as we launched the inaugural blueCHELLA festival.

Bringing together all the elements of the ultimate summer festival, #teambblue danced the night away thanks to DJ Chloe, performances from the Huxleys and channelled their inner bohemian with the onsite boho station.

This year we wanted to GO BIG, and for good reason, our 2019 accomplishments included:

A 35% increase of full-time staff

ISO 27001 certification

Expansion of our global presence to Dallas TX

MSP 501 winner, placing in the top 3 for AANZ

New Sydney office

9th CRN Fast50 award

5th CRN Fast50 All Star award

ARN Mid-Market Partner of the Year award

21st birthday

We continue to grow year on year, which of course means we already have even bigger plans for 2020, our continual growth means we are on track to reach 200 full-time employees in the next 6 months, which will also mean a new office for our Brisbane team.

Founder and Managing Director, Chris Marshall, was quick to thank the entire #teambblue for their focus, their loyalty, and their commitment to making blueAPACHE the Global IT Service Provider of Choice for the Mid-Market.

As part of the festivities, Chris Marshall also took the opportunity to crown the 2019 blueAPACHE award winners.

News

What was blueCHELLA 2019 and when did it take place?

blueCHELLA 2019 was the inaugural festival-style event held by us to celebrate our achievements of the year, bringing the global #teambblue together on Friday 6th December 2019, with entertainment including DJ Chloe, performances from the Huxleys, and an onsite boho station.
