Details:

2020

If you're looking for a new fleet of PCs and you want a balance of sustainability, security and functionality you may want to consider the new HP Elite Dragonfly. Released at the end of 2019, the Elite Dragonfly is the latest addition to the PC fleet from world leading vendor, HP. It's been labelled as their most secure and manageable PC, it weighs less than one kilogram and has been cleverly designed to be stylish, powerful, secure and mobile. It offers several business-grade hardware options making it easy to tailor to your organisation's requirements and budget.

HP is a member of NextWave Plastics , an organisation that aims to rapidly decrease the volume of plastic litter in the ocean by developing the first global network of ocean-bound plastic supply chains. Member companies such as HP benefit by utilizing the plastics in their manufacturing.

The HP Elite Dragonfly is the world's first notebook made from ocean-bound plastics, over 82% of the mechanical parts are made of recycled materials.

Functionality

The HP Elite Dragonfly has a durable, iridescent dragonfly blue finish, diamond cut accents, and an impressive screen to body ratio.

Optional 8th Gen Intel® Core™ vPro™ processor.

Extended battery life (13 hours – depending on chosen features such as battery size)

Full size HDMI input, 2 Thunderbolt ports, 1 USB 3.1 gen 1 (charging) and 1 headphone/microphone combination.

Optional gigabit-class 4G LTE and gigabit-speed Wi-Fi 6.

Audio by Bang & Olufsen, HP Noise Cancellation, four top-firing speakers, and four discrete amps work together to create immersive sound.

Security

The HP Privacy Camera provides the ultimate discretion, with users able to simply close the shutter to block the camera.

The integrated privacy screen protects users from the threat of onlookers using HP Sure View Gen3.

Fortify your security with HP Multi-Factor Authenticate Gen3, with up to three authentication factors including fingerprints and facial recognition.

Optional built-in Tile™ solution, so users can use an intuitive app to help you find your device even when your PC is turned off.

Considering a new fleet of PCs? At blueAPACHE, we know there is no “one size fits all” solution when it comes to IT, which is why our team of experts help you discover what product is right for your business.
